

MOHD FAIZANULLAH

Junior Data Scientist

 Mohd Faizanullah  MohdFaizan22  mdfaizanullah05@gmail.com  7095636826

PROFILE

Highly motivated Aspiring Data Scientist skilled in Python, SQL, Machine Learning, and Deep Learning. Passionate about building AI-driven solutions and applying analytical and problem-solving skills to contribute to organizational success.

TECHNICAL SKILLS

Languages

PYTHON, SQL, C++

Tools:

Git, GitHub, Streamlit, Flask, Gradio, Jupyter Notebook

ML/DL:

Machine Learning, Deep Learning, NLP, Computer Vision, Scikit-learn, TensorFlow, PyTorch

Cloud:

Hugging Face Spaces, Google Colab

PROJECTS

HOUSE PRICE PREDICTION

- **Tech Stack:** Python, Scikit-learn, Pandas, NumPy, Flask, Streamlit
- Developed an XGBoost-based house price prediction model for Bengaluru properties using feature engineering and preprocessing ($R^2 \approx 0.89$). Built and deployed a Flask REST API for real-time price prediction.

AGRI-VISION AI

- **Tech Stack:** Python, TensorFlow, CNN, OpenCV, Gradio, Deep Learning, ImageDataGenerator.
- Built a plant disease classifier (EfficientNetBo Transfer Learning, 96.2% accuracy on 38 classes from 54K PlantVillage images); deployed a Gradio web app enabling farmers to get instant disease diagnosis + treatment suggestions from smartphone photos.

TOXIGUARD-BERT

- **Tech Stack:** Python, NLP, Transformers, TensorFlow, Hugging Face, Streamlit
- Fine-tuned BERT for 6-class toxic comment detection (ROC-AUC 0.992) using PyTorch multi-label classification with per-label threshold optimization; tracked 12+ experiments via Weights & Biases MLOps pipeline.

AI BASED SMART WASTE SEGREGATION SYSTEM

- **Tech Stack:** Python, TensorFlow, OpenCV, CNN, Arduino, Raspberry Pi.
- Developed a CNN-based computer vision system using transfer learning to classify waste into metal, organic, paper, and plastic categories from real-time camera input. Integrated Raspberry Pi, Arduino, and servo motor automation for intelligent AI-driven waste segregation and efficient recycling management.

EDUCATION

B.E in Information Technology

OSMANIA UNIVERSITY

GPA: 8.5/10 (present)

2023 – 2027

INTERMEDIATE

NARAYANA JUNIOR COLLEGE

GPA: 9.6/10

2021 – 2023

SCHOOLING

LITTLE SCHOLARS SCHOOL

GPA: 9.8/10

2011 – 2021

COURSES

DATA SCIENCE AND AI, ITX Learning Hub

11/2025 – 04/2026

MACHINE LEARNING AND NLP BOOTCAMP, Udemy

01/2026 – 05/2026
